

Australia Nature Guide (Chinese Edition)

1. Great Barrier Reef

Location: Northeast coast of Queensland, Australia (2300 km long)

Photo keywords: "Great Barrier Reef aerial drone coral reef clear water"

Highlights: World's largest coral reef system; UNESCO World Heritage Site. Try glass-bottom boat, snorkeling, or helicopter tour.

2. Uluru (Ayers Rock)

Location: Red Centre, Northern Territory (460 km from Alice Springs)

Photo keywords: "Uluru sunset red rock Australia Aboriginal culture"

Highlights: Largest monolith in the world; sacred site of the Anangu people. Join an Indigenous-guided tour to learn Dreamtime stories.

3. Blue Mountains National Park

Location: New South Wales (90 min drive from Sydney CBD)

Photo keywords: "Blue Mountains Three Sisters mist sunrise eucalyptus forest"

Highlights: Blue haze from eucalyptus oil; scenic hikes (e.g., Katoomba Falls) and the steepest railway in the world.

4. Pinnacles Desert

Location: Western Australia, near Nambung National Park (200 km north of Perth)

Photo keywords: "Pinnacles Desert moonlight limestone spires Western Australia"

Highlights: Thousands of limestone pillars formed over 40,000 years; best photographed at sunrise/sunset.

5. Whitsunday Islands

Location: Central Queensland, Great Barrier Reef (hub: Hamilton Island)

Photo keywords: "Whitehaven Beach Whitsundays aerial view silica sand"

Highlights: Silica-white sand (98% pure), turquoise waters; ideal for catamaran island-hopping.

Tips: Chinese-speaking guides available at all sites (book in advance). Domestic flights in Australia are frequent and efficient.
